

Microfocus Ratcheting Cable Slitter

Features

- > Slit and ring cables made of PVC, PE, rubber, and other jacket materials
- > Fixed jaws and ratcheting feature make it easy to grip and slit heavy-duty cable
- > Perfect for mid-span or end cable slitting and ringing
- > 10, 20, and 30 mm ruler marked on tools for accurate and precise slitting lengths
- > Blades are made of steel, ground, and heat-treated for a razor-sharp edge and long term durability
- > Replaceable double-ended blades have an adjustable cutting depth of 0 to 5 mm.
The [RCS-25RBMF](#) is the replacement blade for the ITL103026

This ratcheting cable slitter is designed to dismantle heavy-duty cables. The ITL103026 slit and ring round cables greater than 25 mm in diameter.
