

Microfocus multi-function Kevlar & wire cutting shears

Features

- > Blades made from 4034 Japanese stainless steel for the best cutting performance and long life
- > Curved handle design with spring-loaded handles greatly reduces hand and wrist fatigue
- > Handles are made of dual component nylon and Santoprene™ materials for superior comfort and long-term durability
- > Serrated blade edge grips Kevlar and other delicate materials firmly while cutting
- > Round cutting notch cleanly cuts soft copper cable up to 6 mm or soft metal wire 2 mm

Designed with serrated blades, large cutting notch, non-insulated terminal crimpers, and spring-loaded handles the Microfocus Multi-function Kevlar® & Wire Cutting Shears are the ultimate scissors for any fiber technician or electrician.

Specifications

Application	Kevlar & cable cutting
Weight	205 g
UPC no.	810053351581
Item code	ITL104651
