### **DATASHEET**

## **Mounting Bracket CFD**

Article number: 29027

## **Product description**

The mounting bracket CFD is specially developed for the Compact Fiber Dome, which is able to extend or repair the FttH drop cable for aerial and direct buried applications. This way, the Compact Fiber Dome can be quickly and firmly assembled against a wall or any other surface.

The mounting bracket is quickly disassembled and therefore very suitable for creating temporary connections anywhere. Both CFD and mounting bracket are universally applicable, independent of the chosen FTTH drop cable.

The mounting bracket also provides extra protection for the Compact Fiber Dome.

#### .

### Features and Benefits

- Easy to install
- Universally applicable
- Impact resistant
- Extra protection CFD
- Fixed and temporary connections
- Increased UV-Resistant

Colour Black

Article number

29027: Mounting Bracket CFD

# **Packaging**

Packaging quantity: 5 pcs

Cardboard dimensions: 230 x 190 x 95 mm

All products suitably packed in recyclable materials and clearly labelled with Attema article number and description.

# **Technical characteristics**

Material: Polypropylene Co-Polymer (Master Batch UV)

Dimensions: L=175 W=90mm H=85mm

Color: Black Weight: 80 gram
