

10mm Gas Block Connector (100st)

General information

Description	Micro-duct connector providing gas tight seal connection around the cable inside via closing down a rubber seal in the middle by turning the yellow cap of the connector. When opened, cable can be blown through this connector and sealed afterwards by rotating ring. Should always be installed at the entry transition points to the buildings, ODFs etc. where water or gas presence is the matter of danger. Delivered in a plastic bag of 100pcs.
Article number	1508
Unit	PAC
MOQ	1 PAC
Weight	1,800 kg
Packaging per unit	56X23X23MM

Technical information

Connector side A	10mm
Connector side B	10mm
