

In tune with your needs

With safety and functionality at its core, the **Accent** bed from Invacare offers exceptional value for money. Providing real comfort for the client along with an appealing design, this bed is ideally suited to any environment.

The **Accent** bed is an economical choice that's perfectly in tune with your needs. It meets the highest safety standards, is fully electrically operated, and the design of the mattress platform ensures maximum comfort. With stylish wooden bed ends in natural beech, it provides a homely feel and is perfectly suited to all home and long-term care settings.

Trusted Solutions, Passionate People

Features and Options

Reliable and safe

A highly affordable choice, the **Accent** bed is reliable and safe. It has been designed using only high-quality components to ensure functionality and durability. Like all Invacare beds, the bed and the side rails meet the strength demands of IEC 60601-2-52 safety standards for beds.

Reduced shear and friction

The optimised dimensions of the different sections of the mattress platform are designed in accordance with anthropometric statistics and pressure mapping recommendations. Because of this, general shear and friction are reduced and the client can enjoy increased comfort when sitting. Lockable tilt is available as an option to further aid pressure relief and provide a comfortable sitting position.

Bella and Aria side rails

Bella, full-length wooden side rail in beech or Aria, full-length side rail in steel are easy to mount without the need for tools.

Lifting pole

A lifting pole that's light and easy to adjust.

Hand controls

Hand controls that come with or without locking functions.
