LED KIT with 4 X 0.5M FLEXI-STRIP LENGTHS

R405MK-WW	Warm White
R405MK-CW	Cool White
Power consumption total (W):	14
Power consumption (W/m):	5.6
LED's/m:	60
Light output/m (lm):	420
Beam Angle (deg):	120
Colour Temperature (K):	2700/4000
Average LED life L$_{70}$ (Hrs):	30,000
Cut points:	Every 3 LED's
Length (m):	4 pieces @ 0.5m
Height (mm):	2
Weight (Kg):	0.5
Box Qty:	1
IP:	20
Guarantee (Yrs):	2

This LED flexi-strip kit is available in both warm white or cool white so lends itself to uses in either commercial or domestic type displays. Primarily used for highlighting display shelving or under cupboard lighting it is hugely versatile due to the junction box and extension leads provided.
The kit provides superb display lighting at very low running costs and with virtually no maintenance and is suitable for applications such as:

- Bars
- Hotels
- Restaurants
- Under-counter displays
- Clubs
- Window dressing
- Over/under wall cabinet's
- Reception areas
- Under stair nosing's
- Ceiling and wall features
- Feature illumination
- "Star buy" products

FEATURES	BENEFITS
• Complete kit comprising: • 20W Constant voltage LED driver with 1.2m mains cable & plug • 4 port distribution block with 1m cable to driver • 4 connection leads @ 1.2m • 4 Pieces flexi-strip @ 0.5m long • 4 butt connectors and heat shrink	• Nothing else required • Provides option of using 1, 2, 3 or 4 ports • LED strips can be separately connected to the distribution block using the extension cables or butt connected together to form longer lengths • Heat shrink ensures integrity of connections are maintained
• Utilises 30 high brightness, low power SMD LED's per metre • Only uses 5.6W per metre	• Provides a bright light output to create a stunning effect • Extremely low running costs
• 30,000 hours average LED life	• Maintenance free – no lamps to change • That's over 10 years at 8 hours per day
• No ultra violet or infra red in the light beam	• Will not fade or damage sensitive display items
• Push connect	• No solder joints required
• Cuttable every 3 LED's (100mm) • Each length has connectors at both ends	• Bespoke lengths and shapes can be designed • Complete lengths can be joined and extended
• Slim profile	• Allows the strip to be easily concealed
• Self adhesive backing	• Fast and simple fastening of strip to surface
• Dimmable by conventional PWM dimmer modules	• Provides lower light level ambience
