Installation

1. Ensure mains supply is switched off before commencing work.
2. Remove 600 x 600mm tile from ceiling.
3. Ensure the area above the fitting is free from obstacle pipes cable tray etc.
4. Remove two screws from the back edge of panel, and fix the metal plate onto this location using the screws provided. As per figure 2, 3.
5. Attach the strap wire to the metal plate and tighten it securely.
7. Secure the other end of the wire to secure position in the ceiling. Adjust wire so that there is no slack. tie up excess wire.
8. Connect Brown wire (live) to L and Blue wire (neutral) to N to AC supply
9. Ensure the connections going to and from the driver are secure.
10. Place connector, drivers and cable into the ceiling void.
11. Offer luminaire up to the ceiling void and manoeuvre into final position similar to standard ceiling tile.

Information for the Product user:

1. Please note the requirement to dispose of Waste Electrical & Electronic Equipment separately from household waste (WEEE marked with crossed out wheelie bin symbol).
2. Please consider your role in contributing to re-use and recycling by returning this product at end of life to a collection centre for waste electrical equipment or a Civic Amenity site, or to a retail outlet from which you are purchasing a replacement.
3. This equipment may contain substances that are hazardous to health and the environment if disposed of carelessly. It is important that it is separated from normal household waste and recycled in the WEEE chain
4. The "crossed out wheelie bin symbol" on a product indicates this equipment must not be disposed of in normal household waste, but should be disposed of according to local WEEE regulations

The Installation must be carried out by a qualified electrician
